

Medina Tech Solutions — SECURITY INCIDENT FILE

Document type: Recovered external communication

Received: March 14, 2025 — 06:00 AM

Recipient: admin@medinatech.tn **Sender:** dante@protonmail.com

Subject: You should have been more careful

To the team at Medina Tech Solutions,

By the time you read this, it's already done.

I have been inside your network for weeks. I watched your logs, your schedules, your blind spots. I knew when your security team slept and when your backups ran. I knew which ports were open and which rules hadn't been updated since 2022.

You trusted your perimeter. You forgot about the inside.

What I took:

- 40,247 client financial records
- Full account identifiers and transaction histories
- Internal audit logs from Q3 and Q4 2024
- The backup verification keys you thought were safe

You will not find where they went. You will not find me through the logs I made sure of that before I left.

Stay sharp.

— Dante
